"CLASSIC WITH A TWIST"

A signature that evokes memories while
remaining closely attuned to its time

A byword for elegance. A singular identity that celebrates heritage and
dares to explore the unexpected. A form of creative energy.

A classic with a twist. Poised at the intersection between technical virtuosity
and aesthetic refinement, the enduring allure of Vacheron Constantin
timepieces makes its way unscathed through passing eras.

Because timelessness cannot be achieved merely by complying with the
canons of traditional watchmaking, each creation is tinged with a touch of
boldness revealed in the smallest details. Special displays, offset indications,
specific chamfering of all components, hand-crafted finishing and the
complexity of a mechanism are just a few examples of this expertise. The
result is a very personal field of expression where technique and style
converge in a subtle harmony between the conventional and the atypical.

HISTORIQUES AMERICAN 1921

When the past guides the present

An asymmetrical diagonal display, an offset crown and a cushion-shaped case: this classic yet unorthodox icon from the Vacheron Constantin heritage combines the aesthetic boldness of the Roaring Twenties with contemporary technical requirements. A unique and indeed legendary style celebrating its 100th anniversary in 2021.

MÉTIER D'ART

A window on the world

Vacheron Constantin explores one of the most exhilarating pages in history through this third opus in the Métiers d'Art collection "Tribute to great explorers" dedicated to 16th century Portuguese navigators. The artisan's meticulous attention to detail gives rise to extraordinary compositions in Grand Feu enamelling resembling miniature paintings. A creative freedom that echoes the watchmaking genius behind the scenes, setting the cadence for its satellite hours and minutes.

TRADITIONNELLE

In the vanguard of elegance and technical sophistication

Born of an intimate dialogue between aesthetic refinement and technical sophistication, the Traditionnelle collection is distinguished by its rich palette of horological complications, enriched this year by the Manufacture's in-house ultra-thin split-seconds chronograph calibre. This avant-garde technical repertoire is enhanced by eminently classic codes inherited from the Haute Horlogerie tradition of 18th century Geneva.

TRADITIONNELLE

5400T/000P-B637

ÉGÉRIE

Vacheron Constantin's horological muse

The world of Haute Couture infused it with a uniquely sophisticated style and an asymmetrical aesthetic inspired by Vacheron Constantin's heritage did the rest. Born of this dual inspiration, the Égérie collection enhances the wrist with a pleasing geometry blending with jewellery-making virtuosity to create a quintessentially feminine allure that is both timeless and mischievous.

OVERSEAS

Fuelled by the spirit of travel

Recognisable at first glance by its Maltese cross-inspired bezel, the Overseas collection evokes the spirit of discovery and openness to the world bequeathed by François Constantin. Entirely at ease in all situations thanks to an interchangeable strap/bracelet system, the collection continues to broaden its horizons with a highly contemporary sporty chic temperament, at the crossroads of performance and style.
