* BEAUTIFUL HIGH WATCHMAKING

FROM GEØMETRY TO ARTISTRY

A Vacheron Constantin watch is far more than merely the sum of its parts. Starting from a sketch, a geometrical drawing and its technical extensions, a whole world of shapes, colours and textures is born.

VACHERON CONSTANTIN GENEVE

The complex structures of mechanical engineering combine with design; meticulous detail gives life to grace; artisanal intelligence sparks emotions. Based on formal, mathematical study, Vacheron Constantin timepieces are thus endowed with a touch of soulfulness and elegance representing the ultimate expression of artistic talent. The classicism of the Traditionnelle collection; the minimalism of the Patrimony watches; the allure of Égérie; and the sporty-chic spirit of Overseas, all vividly illustrate this alchemy within which artistry is inspired by geometrical shapes.

Faire mieux si possible , Ce qui est toujours possible

T R A D I T I O N N E L L E Tourbillon chronograph

Platine signature offers exceptional watches in limited edition. Case, crown, dial, buckle are crafted in 950 platinum, while even the leather strap is hand-stitched with platinum and silk threads.

REMAINING ROOTED IN THE MAISON'S DNA

DESIGN

 \bigcirc

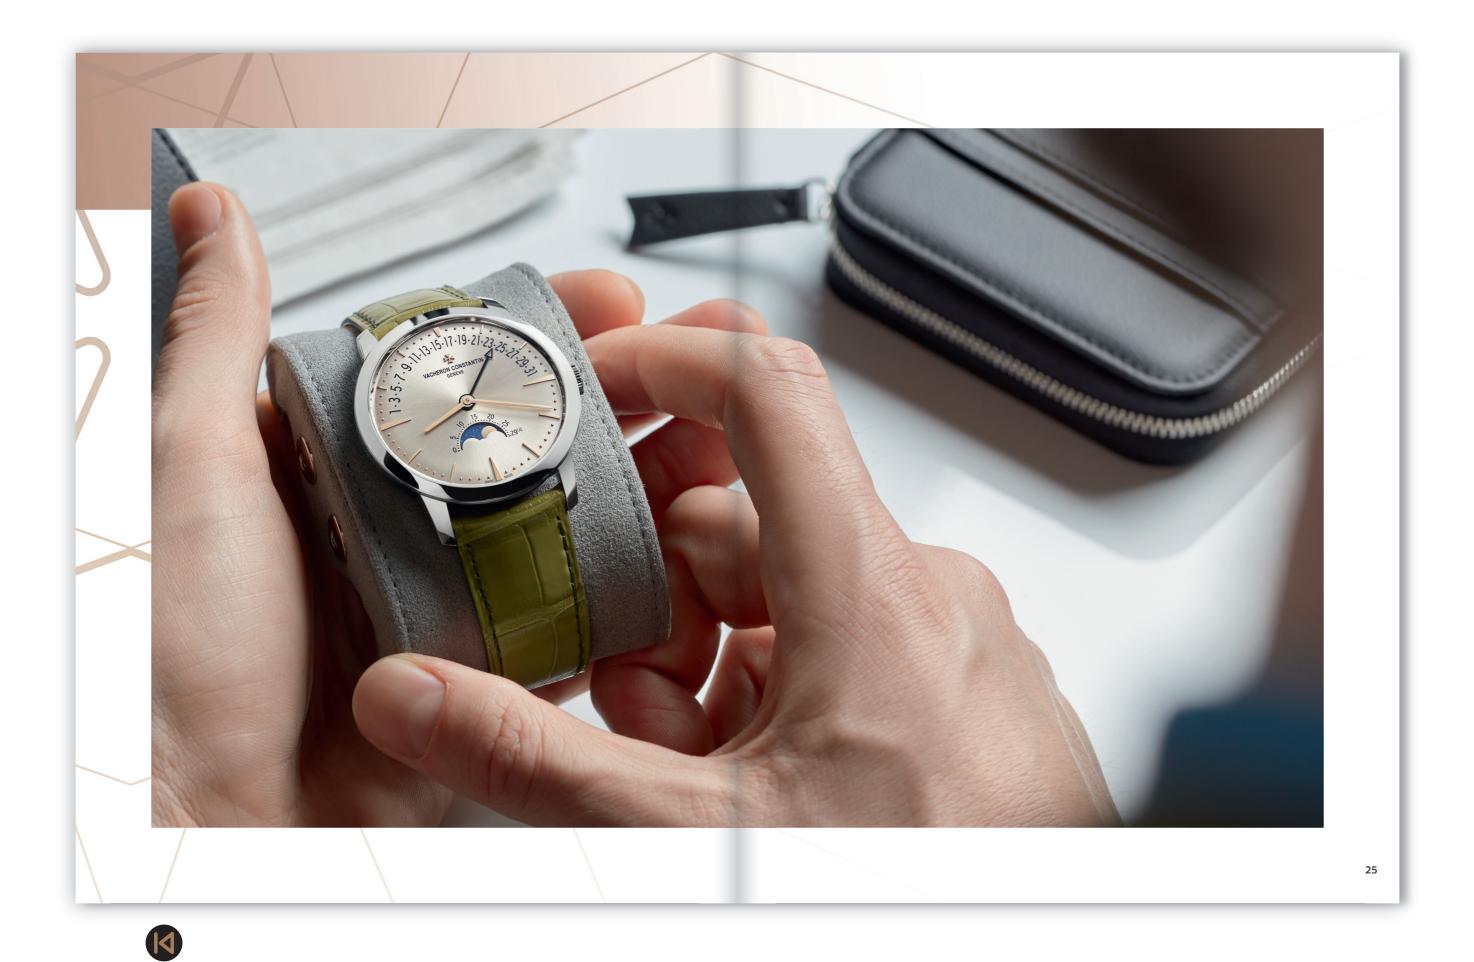

The challenge of Vacheron Constantin's designers is to constantly create and innovate while respecting the Maison's heritage and devoting special attention to aesthetic details.

Because timelessness cannot be achieved simply by conforming to traditional watchmaking conventions, each creation reflects discreet elegance, sophistication and refinement, faithful to the Manufacture's roots and history.

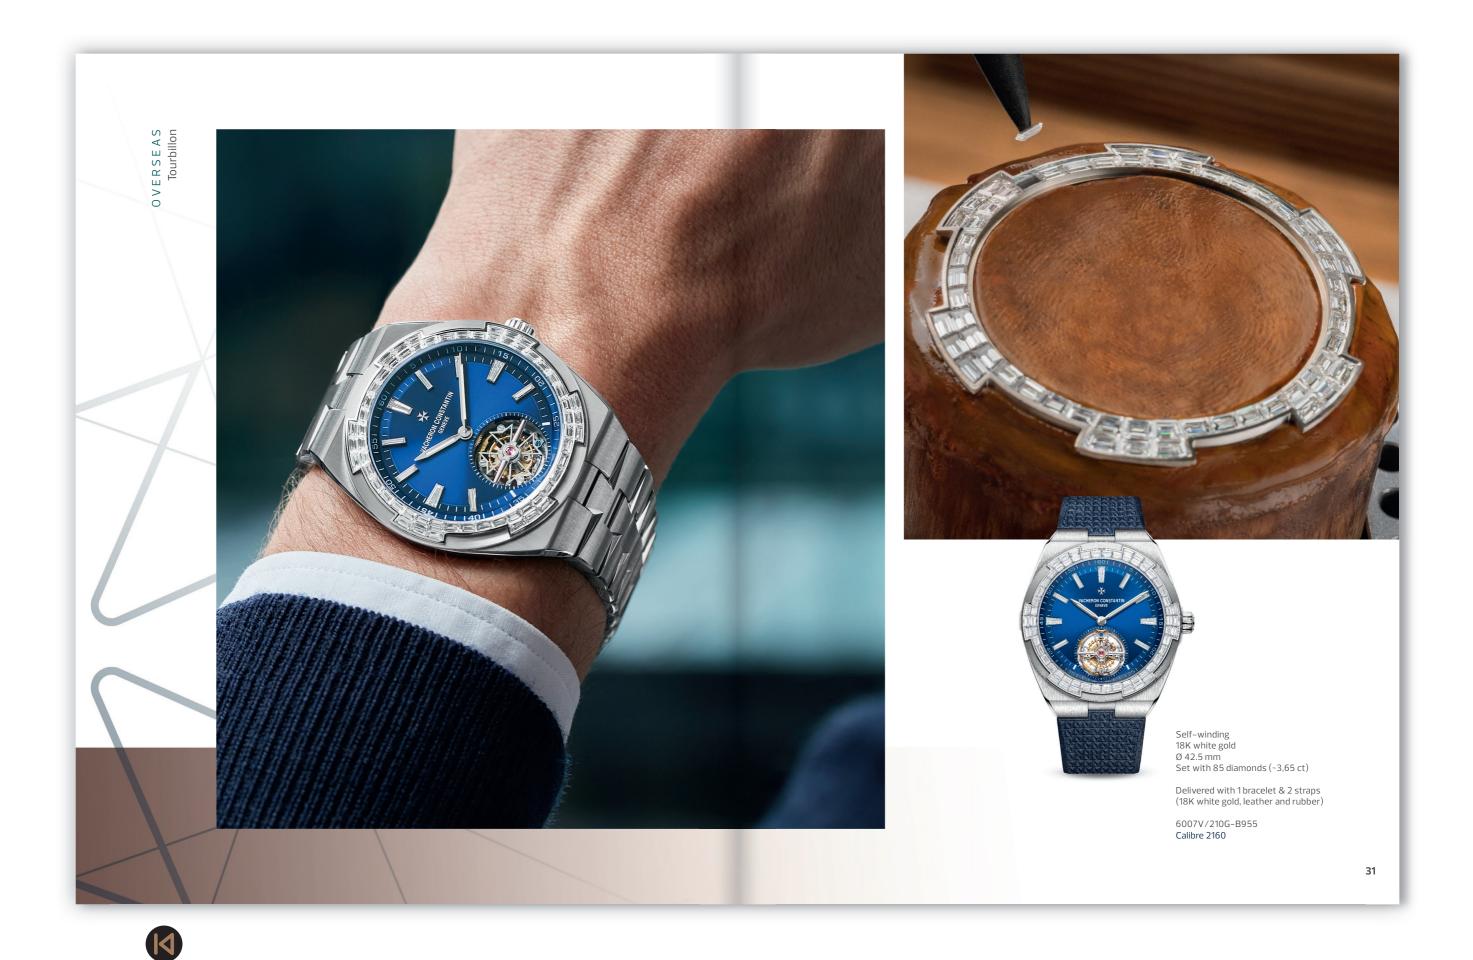

ACHERON CONSTANTIN GENEVE

The openness to the world bequeathed by François Constantin has remained at the core of the Maison's philosophy ever since its founding. Designed in a spirit of casual elegance and comfort enhanced by their self-interchangeable strap system, Overseas timepieces are perfect daily companions for both exceptional and everyday travels.

VIRTUOSITY

UPHOLDING A SINGULAR SPIRIT

Within the prestigious setting of High Watchmaking, Vacheron Constantin embodies virtuosity.

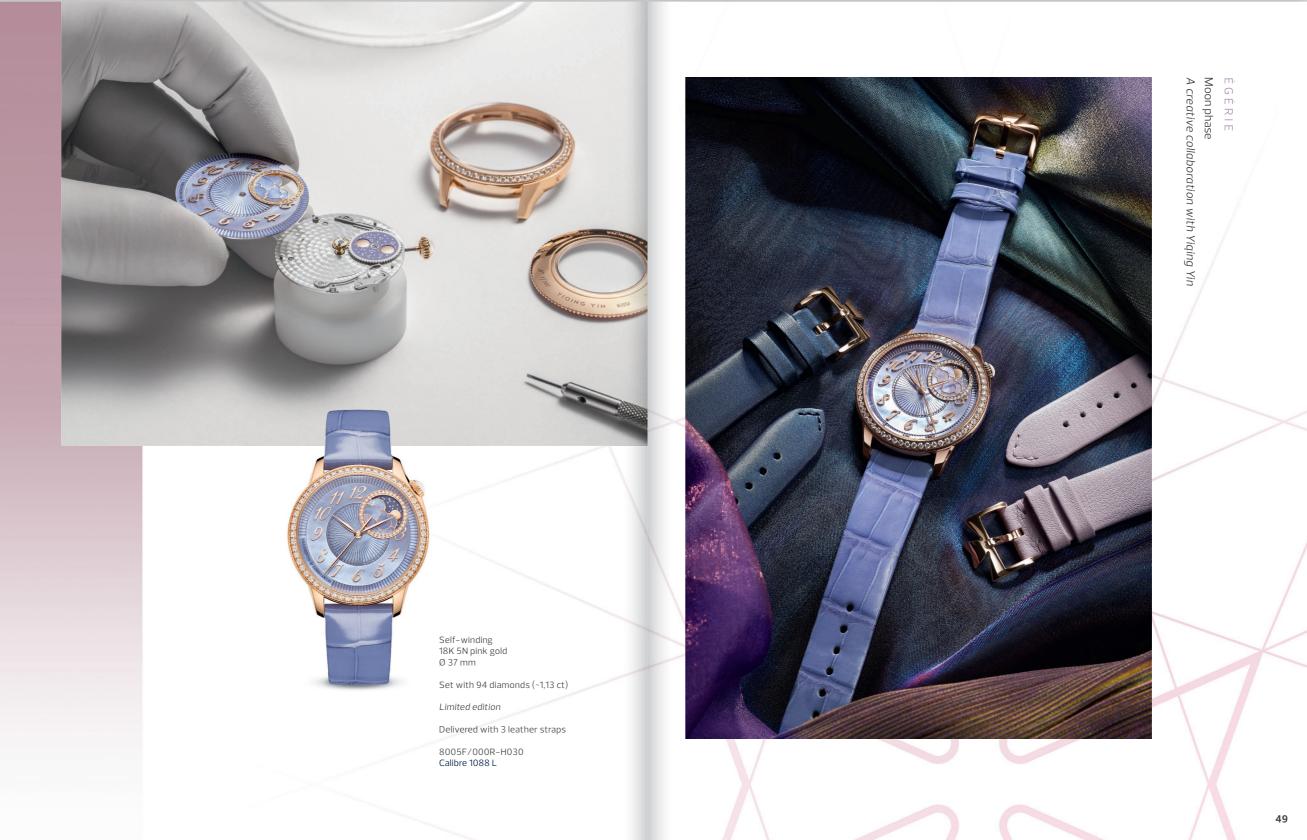

The Maison has chosen to collaborate with talents whose personality and work express openness to the world, along with a spirit of innovation and creation. These human and artistic encounters follow naturally in the wake of those that have punctuated the history of the Maison.

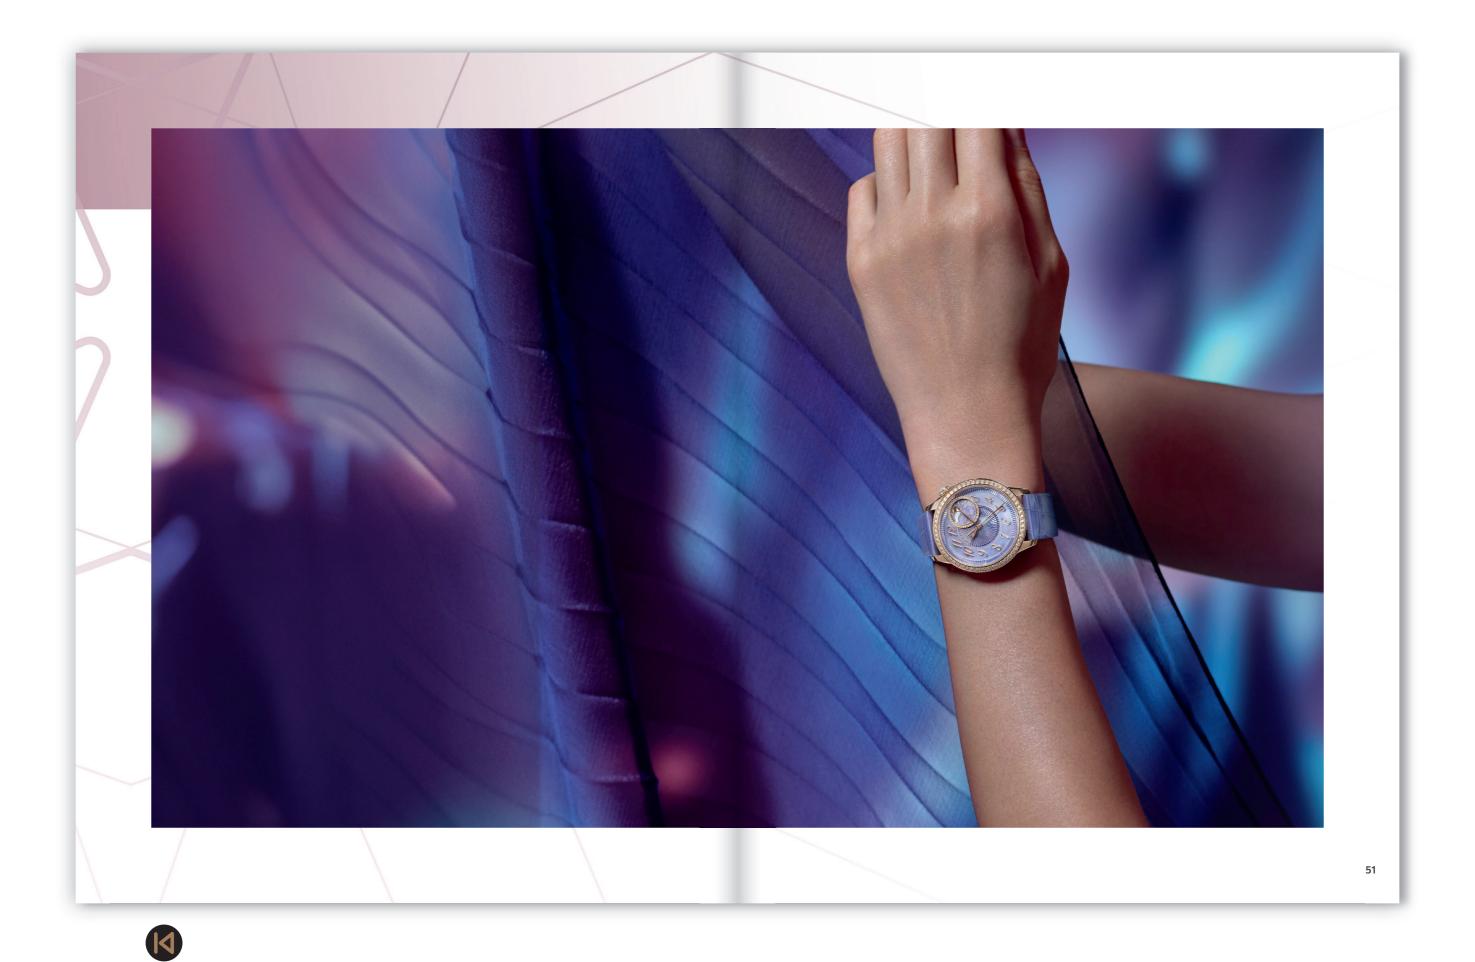

ÉGÉRIE Vacheron Constantin's horological muse

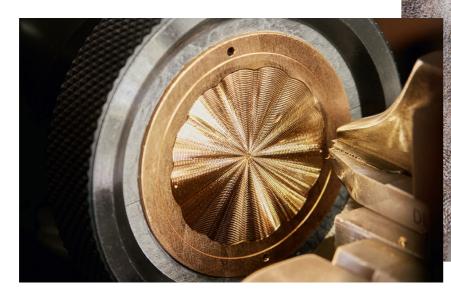

The Égérie collection weaves the encounter of two worlds, High Watchmaking and Haute Couture, under the prism of craftsmanship, precision, excellence and beauty. The refined style of the timepieces is subtly paired with the asymmetrical aesthetic faithfully perpetuating the Vacheron Constantin heritage. The pleated effect reminiscent of delicate fabric is draped with a mischievous touch reflecting today's women: inspiring, independent and charismatic.

PERPETUATING AND EVOLVING THE MAISON'S KNOW-HOW

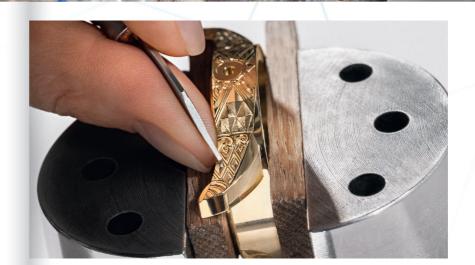

Purity, refinement and elegance are the Maison's stylistic identity, defining its personality and guiding its fundamental choices.

These attributes are expressed in a more ornamental way through its expertise in decorative art techniques and artistic crafts such as gemsetting, engraving, guilloché work and enamelling.

All decorations are applied by hand, with a multitude of tools designed by the artisans themselves or on complex ancient machines that they continue to maintain in operation. Faithful to its humanist values, the Maison develops rare skills.

MÉTIERS D'ART

A window on the world

Celebrating decorative techniques applied to watchmaking and jewellery, the watches composing the Métiers d'Art collection are inspired by Art, History and Culture. Beautifully enhanced by the Master craftsmen of the Manufacture, these authentic works of art testify to creativity that is open to the world, as well as to know-how passed down through generations. Here, the noblest craftsmanship finds an infinite scope of application. Precious stones, *Grand Feu* or *plique-à-jour* enamel, gold sculptures or engraving as well as miniature paintings all depict an imaginary world constantly extended by Vacheron Constantin. M É T I E R S D' A R T Tribute to Explorer Naturalists

MACUE

Vacheron Constantin has chosen to associate two crafts in making these new limited editions. The upper part of the dial is graced with a fine 18K white gold engraving depicting the Beagle sailing on blue-enamelled waves. The lower part displaying the hours and minutes is embellished with a naturalist scene in which luxuriant vegetation is reproduced by the enamelling artisan.

7500U/000R-B994 Calibre 1120 AT/1

Inspired by period engravings, Vacheron Constantin artisans have recreated fascinating tableaux to be explored from every angle. The upper dial features 18K white gold engravings of 3D fauna standing out against a background adorned with miniature paintings. On the lower part of the dial, the aesthetic of ancient terrestrial or maritime charts reproduced in miniature enamel extends an invitation to embark on a new journey through time.
